older faster by living here.
But that just isn't happening.

I always said I want to go to a place where I have community and lots of camaraderie and I have found a wonderful place to live. It has exceeded my expectations. It was a gift.

This place has been a gift to me.

Vibrant Living is our award-winning wellness model that was created with the help of Independent Living residents to ensure that every activity and aspect is relevant, engaging, and beneficial to the needs of our community. We paired their input and insights with the latest research and trends to make a wellness model that meets the needs of everyone.

Residents live vibrantly in various ways, with each component connected to another: Bible study is fulfilling spiritually and socially. Workout classes keep your physical and emotional well-being on track. R.E.A.L. classes spark intellectual discovery and new connections.

5 Components of Vibrant Living

1. Physical Wellness
2. Emotional Well-being
3. Spiritual Fulfillment
4. Intellectual Discovery
5. Social Engagement

It's really good for building a community ... we check in with each other, have fun with each other, and help give each other purpose.
